

# Gmini 400

A revolutionary next generation hard-drive based audio player featuring the industry's first color LCD and advanced features such as photo viewing, gaming and video playback for the ultimate musical entertainment experience.

Store and play up to 300 hours\* of MP3, WMA & WAV music files.

Store, watch and listen to up to 80 hours\* of MPEG-4 videos and movies.

Store and view up to 200,000 photos\*.

Play games.

## Listen & Record Music

Store and listen to up to 300 hours\* of MP3, WMA, and WAV music files and view album cover art on the color LCD. Organize songs with the ARCHOS ARCLibrary and view by artist, genre, title and year (ID3 compatible). Make playlists directly on the device without using a computer. Record from any standard audio source with high-quality stereo sound and make voice recordings with the built-in microphone.

## View & Store Photos

Instantly transfer up to 200,000 JPEG images\* from a digital camera memory card using the built-in CompactFlash™ reader. Download photos directly from a PC or Macintosh computer through the USB 2.0 interface. View photos on the high-resolution color LCD or directly on a TV.

## Watch Videos & Movies

Store, watch, and listen to up to 80 hours\* of MPEG-4 videos and movies and view them on the high-resolution 2.2" color LCD screen or directly on a TV.

## Play Games

One free game and selected demos included. Purchase additional games on [www.archos.com](http://www.archos.com).

# Gmini 400
